This is a belated thank you for your phone call to me on the occasion of my new assignment. I had wanted to await the confirmation process and the swearing-in before writing to express this thanks.

Having the backing and support of fine professionals like you and great components like NPIC gives me a very upbeat and optimistic feeling about the future. I am sure we will encounter problems, but the opportunities for this great Agency of ours surely outnumber the problems.

All the best.

Faithfully yours,

E. H. Knoche
